

Download 2011 Dmax Service Manual

A good friend of mine just bought a Dmax on my recommendation. He bought a manual and it has just about reached 3000kms and its first service however has noticed a slight shudder thru the cab and chassis in first gear at around 2000rpm. just for a short moment then it dissappears.hi fellow dmax owners. got myself a 2014 dmax with the mighty 3lt turbo diesel. about to drop the oil and filter. can anyone tell me how much oil it takes ? ive heard 7.3 litres but im finding it hard to confirm that. im not having any luck with searching on the net. and also does anyone know how many litres the standard tank is ?
