Overview. With a worldwide membership of over 68,000 members in over 150 countries, BCS is a registered charity and was incorporated by Royal Charter in 1984. Its objectives are to promote the study and application of communications technology and computing technology and to advance knowledge of education in ICT for the benefit of professional practitioners and the general public. John McCarthy (September 4, 1927 – October 24, 2011) was an American computer scientist and cognitive scientist. McCarthy was one of the founders of the discipline of artificial intelligence. He coined the term "artificial intelligence" (AI), developed the Lisp programming language family, significantly influenced the design of the ALGOL programming language, popularized timesharing, and was ... Peer-to-Peer and social network systems. One of the seminal papers in peer-to-peer systems was The Eternity Service, which I presented at Pragocrypt 96. I had been alarmed by the Scientologists' success at closing down the penet remailer in Finland; the modern era only started once the printing press enabled seditious thoughts to be spread too widely to ban. Pour Claude Parthenay [1], Herbert Simon a cherché ce que la science pouvait dire de la raison en partant de l'observation des faits. Cela va amener Simon à se démarquer de la « rationalité substantive » (substantive rationality) et à se tourner vers la rationalité procédurale. La rationalité substantive est comprise comme la rationalité parfaite [2] des néo-classiques français et d ...
