

Download Cpr Cardiopulmonary Resuscitation And First Aid For Choking

Most cardiac arrests in babies occur from lack of oxygen, such as from drowning or choking. If you know the baby has an airway obstruction, perform first aid for choking. If you don't know why the baby isn't breathing, perform CPR. To begin, examine the situation. Stroke the baby and watch for a response, such as movement, but don't shake the baby. CPR, AED and Choking Training : What You Need To Know. Home Blog First Aid Training CPR, AED and Choking Training : What You Need To Know. ... Health Professions Council of South Africa and have extensive practical operational experience and have specialised in First Aid, Cardiopulmonary resuscitation (CPR), Firefighting and H&S training. ... This step-by-step guide explains the basics of first aid for choking and CPR, but please don't rely on it as your sole source of information.
