Flash Crash: the untold story. Hedge fund manager Oren Ferber and his manipulative protégé, Jenny DeBeaux, interfere with the investigation and match wits with SEC investigators Ian McRae, Candice Alexander and Max Feyman. But it's not just a Wall Street story, it's a story of deception and manipulation, money and power, and getting even. The Flash Crash was an actual event. There has been a lot written about it and a thorough explanation can be found on Wikipedia. But Flash Crash: the untold story is entirely from my imagination. The characters are made-up and the plot and subplots are entirely fictional. This is a good topic for a story and an intriguing concept. But the lack of emotion, caring about the characters, and glossing over through telling instead of showing, left me unable to recommend this book. Flash Crash: the untold story. by Christopher Liberty. Paperback. USD 9.99 \$ 9.99. Ship ... But it's not just a Wall Street story. It's a story of deception and manipulation, money and power, and getting even. And it's a cautionary tale of what can happen when Wall Street is unchecked and out-of-control.
