

Download Manual Transmission Remote Start

When you want to remote start your vehicle, simply press the button on the remote. As long as no-one has opened the door since you exited, the car will start. If the door was opened, the car will not start. This is a safety feature to ensure that no one has gotten in the vehicle and put it back in gear. The manual transmission remote start is set up to prevent unwanted or accidental starting with the transmission in gear. Therefore it is designed as a fail safe system. In fact you should come by and we'll show you how they work. [The Trouble With Remote Car Starters and Manual Transmissions](#) When you install an automatic starter in a vehicle that has an automatic transmission, it typically checks two things before starting the engine: that the transmission is in park, and that the parking brake is set. [Here Is How The Manual Transmission Remote Start Sequence Works](#) When you arrive at your destination, you simply pull into your parking spot. While the vehicle is still running, you engage the parking brake with your foot still on the brake pedal. All you have to do is wait 3 to 4 seconds before turning off the ignition.
