

Download Proceedings Of The 2nd European Workshop On Periodontology

The 2nd European Workshop on Periodontology, held in 1996, focused on chemical agents in periodontics. This volume includes: antibiotics in the treatment of periodontal disease; antiseptic agents and nonsteroidal anti-inflammatory drugs (NSAIDs) in periodontics; chemically active agents in toothpastes; chemical agents in periodontal regeneration; and chemical agents in periodontal diagnosis. Proceedings of the 11th European Workshop on Periodontology. The XI European Workshop of Periodontology "Effective Prevention of Periodontal and Peri-implant diseases" was supported by the European Federation of Periodontology in part through unrestricted educational grants from P&G and J&J. Guest Editors: Mariano Sanz and Maurizio Tonetti S1-S316. Proceedings of the 2nd European Workshop on Periodontology : chemicals in periodontics : Charter House at Ittingen Thurgau, Switzerland, February 3-6, 1996 : under the auspices of the European Federation of Periodontology / sponsored by the Swiss Society of Periodontology ; edited by: Niklaus P. Lang, Thorkild Karring, Jan Lindhe.
